STUCCO BAND

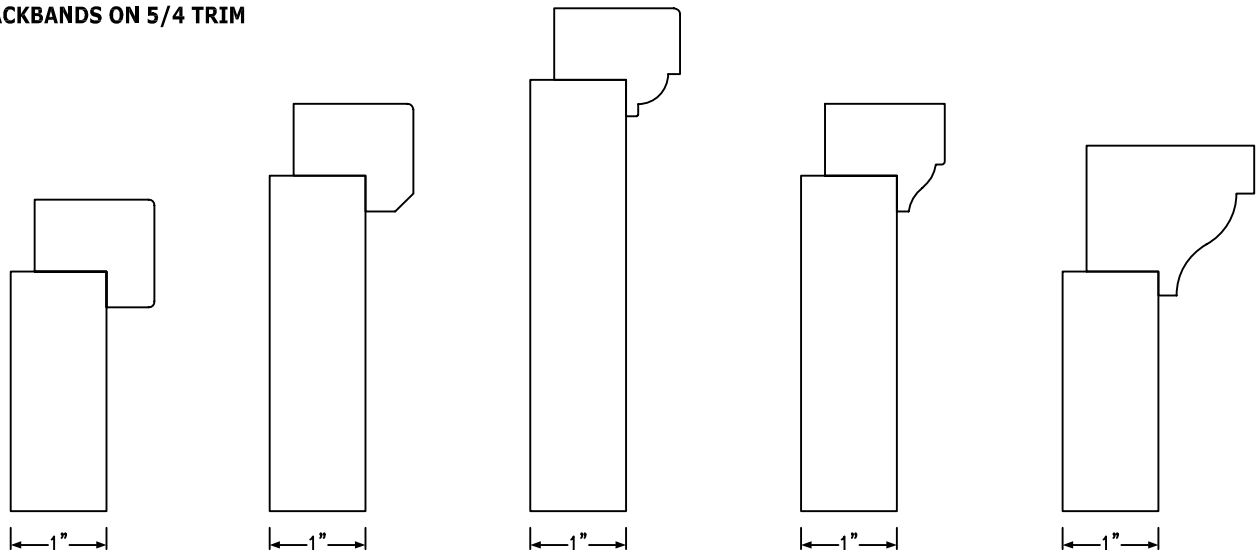

BACKBANDS

BACKBANDS ON 3/4" TRIM

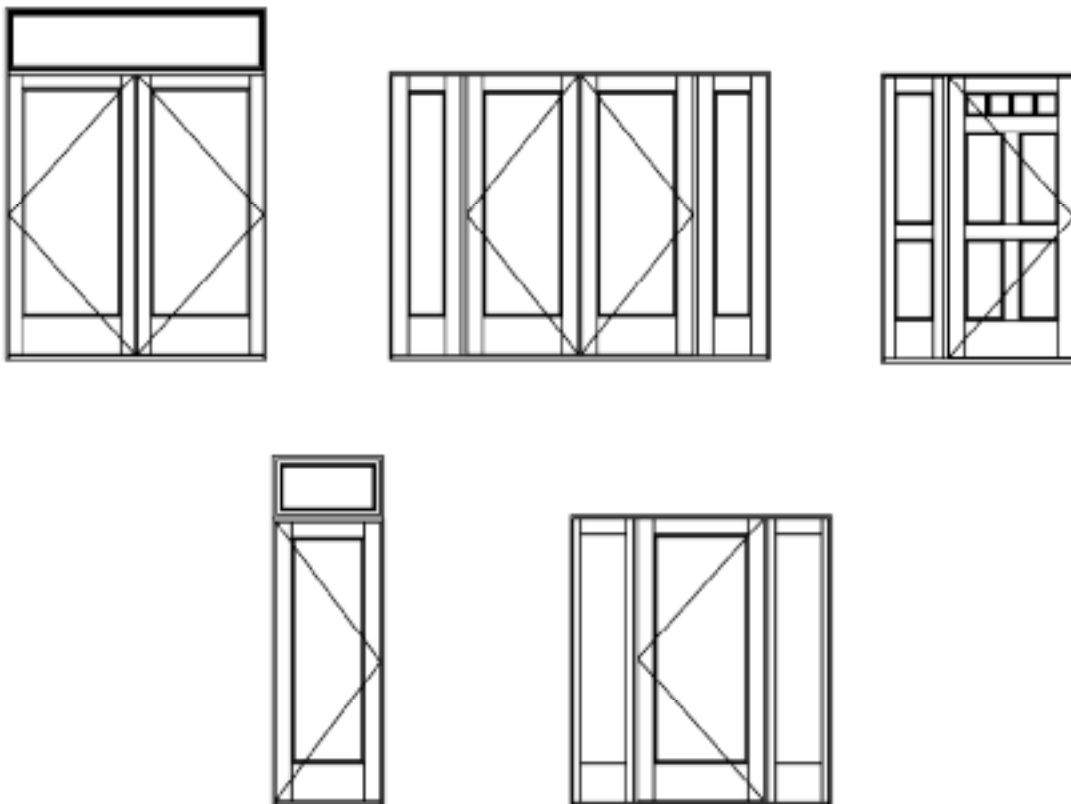

BACKBANDS ON 5/4 TRIM

Transoms and sidelites are often called for to complete a door system. Quantum offers considerable flexibility in building transoms and sidelites to match existing architecture or to complement a new door design yielding a truly custom system.

Quantum sidelite mullions are called out with the door style first, followed by the joining option.

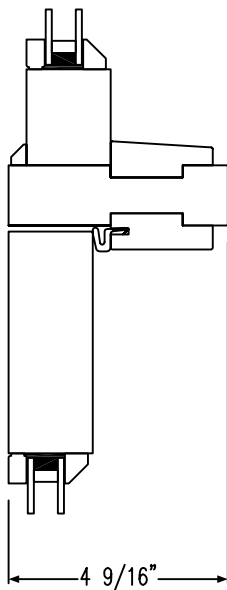

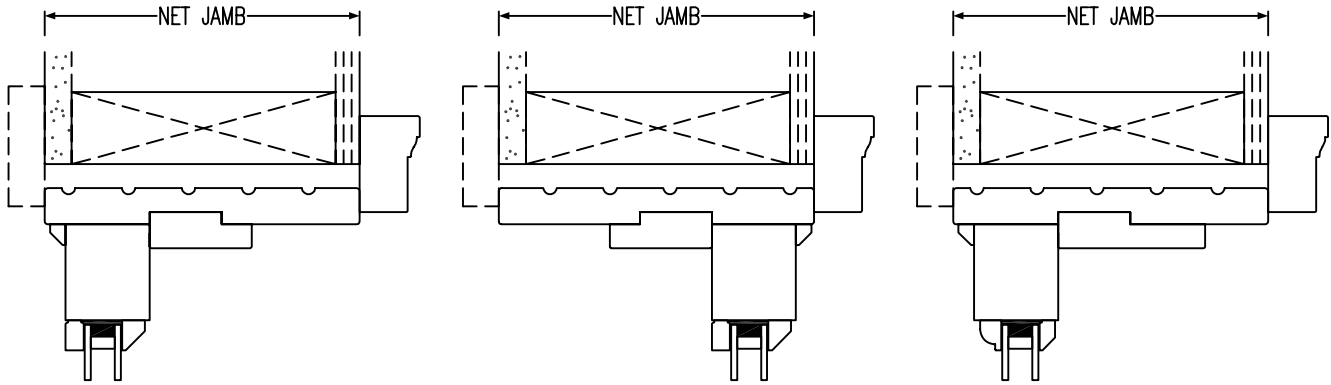

We recommend you consult your Quantum Representative to verify mullions.

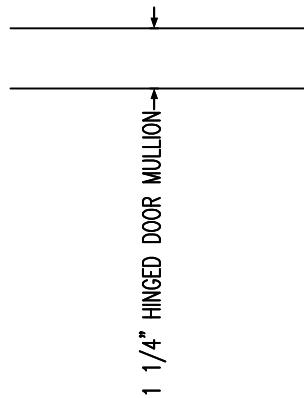

Transom & Sidelites
