

QUANTUM
WINDOWS & DOORS

Est. 1982

KIRKPATRICK ARCHITECTS 4th Walkstreet

Doors and windows are like fine furniture - heirlooms that operate. Quantum's product is like a natural extension of our architecture - framing precious vistas and helping us continue to emphasize the indoor/outdoor lifestyle. Grant C. Kirkpatrick

Wilson Construction | Manolo Langis Photography | Manhattan Beach, CA

FOUGERON ARCHITECTURE Fall House

We are delighted with the Quantum doors and windows we used at Fall House in Big Sur. The quality and pricing could not be beat. Since our project was right on the Pacific Ocean we were very concerned about the ability of the windows and doors to withstand the salt air, the sun and the wind; they have done so beautifully. And the fact that they are made on the West Coast near Seattle is also a big bonus. Anne Fougeron

Thomas George Construction | Joe Fletcher Photography | Big Sur, CA

The background image shows a modern interior space. On the left, a painting of a young girl in a pink and blue dress swinging happily on a swing set is displayed on a white wall. Below the painting is a grey sofa with a white cushion and a vase of white flowers. In the center, a set of stone steps leads up to a dark wood door with a vertical glass insert. To the right, a large window with a dark wood frame looks out onto a green landscape. The ceiling is dark wood with recessed lighting.

welcome to QUANTUM

For more than 30 years, Quantum's skilled artisans have been designing the most innovative solutions, sourcing the finest materials, hand-crafting the most beautiful products, and consistently exceeding expectations for what has become a long list of exceptionally discerning clients. As home designs respond to each client's desire for architectural beauty, environmental responsibility, and enhanced light in living areas, window openings are getting larger, performance demands are getting tougher, and building design is being pushed to the limits. Quantum was built to address all of these challenges and should be the natural choice for your window and door needs.

Whether your project is overlooking the ocean, tucked into the mountains, nestled into a city, or surrounded by a cozy community, Quantum products provide seamless transitions to the world around you, while also providing the comfort and security that ensures peace of mind. When form is required to compliment fashion, and when compromise is not an option, Quantum Windows & Doors is the easy choice for beauty and quality in both residential and commercial settings.

We are honored that you are considering Quantum to enhance your living experience. We hope the that following pages provide you with the guidance and inspiration necessary to turn limitations into possibilities and your dreams into reality.

FINNE ARCHITECTS MAZAMA House

I've been involved in projects using Quantum Windows and Doors for 10 years now. In addition to being beautiful their performance is excellent - their Lift & Slide Doors are something to behold. Their customer service is top notch, I couldn't recommend them enough. Nils Finne

ROBERT M. CAIN, ARCHITECT

Early Branch Farmhouse

Our 20 year relationship with Quantum began with research to find the manufacturer of the windows in an architectural magazine's featured house. Quantum's custom approach, beautifully thin window sight lines, uncomplicated profiles and well crafted details were exactly the look I was after for the Early Branch Farm. Quantum's shop drawing process, attention to detail and ability to assist in the design process has proven invaluable to my practice. Robert Cain

MCCLELLAN ARCHITECTS Bay House

Quantum creatively delivered detailed solutions for seamlessly creating complex and oversized mullioned groups and lift slide doors for our project as well as providing the most durable exterior finish for a job with a high level of salt exposure given its location mere feet from the water. Regan McClellan

Dawson Construction | Patrick Barta Photography | Bellingham, WA

DAVID COLEMAN / ARCHITECTURE

Inside Outside House

Whenever our projects require high-quality wood or aluminum-clad wood window and door systems, we turn to Quantum. I first used their products in 1997, on the first house I designed in the Pacific Northwest; they still look good today. Our designs require a high level of detail and integration between building structure, systems and components. Quantum is always happy to assist us, and they routinely meet or exceed our expectations. David Coleman
